

IDF & USIDNet LeBien Visiting Professor Program

Provide your faculty with a Visiting Professor with expertise in primary immunodeficiency disease

- Available to teaching hospitals throughout the United States
- Expert clinical immunologists to lead grand rounds and other educational activities
- Increases knowledge of the diagnosis and treatment of primary immunodeficiency diseases
- No cost to the participating hospital

For more information, call the Immune Deficiency Foundation at 800.296.4433 or email idf@primaryimmune.org

www.primaryimmune.org

The Immune Deficiency Foundation is the national patient organization dedicated to improving the diagnosis, treatment and quality of life of persons with primary immunodeficiency diseases through advocacy, education, and research.

www.usidnet.org

The Visiting Professor Program is funded by the IDF Core Service Sponsors: Baxter Healthcare, Biotest Pharmaceuticals, CSL Behring, Grifols, IgG America/ASD Healthcare/US Bioservices, Octapharma and Talecris Biotherapeutics, as well as, the United States Immunodeficiency Network (USIDNet), a program of IDF. USIDNet is funded in part by the National Institute of Allergy and Infectious Diseases, and the National Institutes of Health, Department of Health and Human Services.
