The Immune Deficiency Foundation (IDF) is the national patient organization dedicated to improving the diagnosis, treatment and quality of life of people with primary immunodeficiency diseases (PI) through advocacy, education and research.

Building the IDF community is ever evolving and constant. First and foremost we empower the IDF community with knowledge and resources. Since 1980, we have fulfilled the basic needs of those diagnosed with PI: information and support. When someone faces a diagnosis of PI, IDF is here for them and guides them when they have questions. We provide content and programming beyond the essentials that is relevant and meaningful to the community—no matter their specific diagnosis. We educate those living with PI about advocating for themselves, from treatment to insurance issues.

In 2018, our community grew stronger. We reached more people and promoted increased awareness of PI in the U.S and the world. We connected with those newly diagnosed and those who are not connected to IDF—but there are still more out there to reach. IDF serves as the voice of the PI community—we ask the tough questions and make sure our community is represented from public policy decisions to research opportunities.

Building the IDF community now and in the years to come is made possible by the generosity of donors. Thank you to all who supported IDF in 2018.
**EDUCATION**

Education is central to our mission, and each year IDF holds informative gatherings throughout the country. IDF has made a commitment to further enhance and increase the number of local education meetings throughout the U.S. Efforts have been made to partner with physicians nationwide to reach more patients and enrich the content of the meetings.

17,470 patients and healthcare professionals reached with 224 presentations in 109 cities, 32 states and 3 countries.

100 healthcare professionals volunteered at 27 education meetings attended by 1,608 individuals.

292,379 education materials distributed at no cost to patients and families.

**WORKING TOGETHER**

Volunteers are the heart of what we do.

**IDF Get Connected Groups**

- 27 Get Connected Leaders of
- 26 Get Connected Groups in
- 11 states coordinated 74 get-togethers attended by 531 individuals. These groups are designed to connect individuals and family members living with PI in their local communities.

**IDF Plasma Partner Program**

Plasma partner volunteers made 56 visits to plasma centers, reaching a total of 2,353 people where they shared their stories with donors, adding a face and humanizing the experience of plasma donation.

**IDF Peer Support Program**

119 individuals offered one-to-one support. This program connects people and patients who share similar relationships to PI. Participation gives patients and/or family members the opportunity to interact with one of IDF’s peer support volunteers, who is a trained volunteer with a personal experience on living with PI.

**IDF Volunteer Network**

We welcomed 211 new volunteers and 176 walk volunteers. This nationwide network of dedicated volunteers serves to advance the reach of IDF in areas of strategic importance of the PI community.
OPTIMIZING THE ONLINE USER EXPERIENCE

Expanding the content and functionality of our website.

**Website - The Go-to-Resource for the PI Community**
More than 782,345 users accessed primaryimmune.org. The website design offers a streamlined and intuitive experience for the user.

**IDF My Account**
Creating an account through IDF My Account allows users to customize how they would like to stay connected with IDF. It gives users access to IDF resources and materials, and lets them update their mailing preferences so they’re always hearing exactly what they want to hear.

**IDF Retreats**
IDF Retreats are weekend gatherings for everyone in the PI community - patients, parents, siblings, partners and children. In 2018, the IDF Retreats were held in Cleveland, OH and St. Augustine, FL. Between both retreats there were a total of 485 attendees, 175 being their first retreat, and 140 being their first IDF event.

**IDF Walk for Primary Immune Deficiency**
In 2018, over 3,000 walkers from 16 cities and 345 teams came together and raised more than $884,500 for IDF Walk for PI. IDF Walk for PI unites the PI community to help create better lives and find cures for individuals living with these rare, chronic diseases. IDF Walk for PI is our largest fundraising event, and funds IDF research grants awarded for patient-focused research in the field of PI. Patients, along with their families and friends, come together to walk for PI, and raise awareness and funds.

**IDF Teen Escape**
IDF Teen Escapes 2018 were held in Minneapolis, MN (June 23-24) and Phoenix, AZ (July 14-15) with over 150 attendees, 60% being first-time attendees. At the IDF Teen Escape, teens, aged 12-18, have a chance to meet face-to-face for a long weekend and learn from healthcare and life management experts. Issues they face are tackled while confidence is gained. Meanwhile, parents participate in sessions geared toward their own issues and concerns.

**1,258**
requests were submitted by patients and families who needed help locating specialists

With this in mind, IDF launched a new feature called the **Physician Finder**. Users can log into their account and find a specialist right in their area. The service includes more than 2,600 clinicians.

UNITING THE COMMUNITY
We strive to connect families together with not only each other but healthcare professionals as well.
ADVANCING RESEARCH

We have leveraged technology to help give researchers insight into the patient experience as well as give patients tools to better track their health.

7,054 registered participants in USIDNET

USIDNET was established to advance scientific research of PI and provide resources for work on PI, including the establishment and expansion of a patient registry, a program for the education and mentoring of young investigators, and the maintenance of a cell repository for use in research.

4,077 IDF ePHR health records with 2,247 IDF PI CONNECT participants

IDF PI CONNECT empowers patients to participate and help transform research by consenting to share their data and their individual experiences. Individuals become a part of IDF PI CONNECT through IDF ePHR, our electronic personal health record, providing users with the latest advancements in health record system management.

1,804 people and healthcare professionals participated in 2 major, patient-focused IDF surveys

Surveys provide crucial insight into the personal impact of PI and help IDF develop initiatives for improved diagnosis and treatment.

MEDICAL OUTREACH

IDF actively promotes and develops medical education and resources to improve the diagnosis, treatment and care of PI.

In 2018, IDF contacted over 2,900 medical professionals in the U.S. and Puerto Rico, we exhibited at 6 medical conferences, and provided 91 physicians expert consults through our Consulting Immunologist Program. This program provided physicians the opportunity to consult with expert clinical immunologists about patient-specific questions and obtain valuable diagnostic, treatment and disease management information.
COMMUNICATIONS
Connecting through hashtags and beyond.

IDF and TZ Social Media Stats
At the end of 2018, we had 15,878 Facebook likes; 2,876 Twitter followers; 2,117 Instagram followers; and 6,946 users on IDF Friends. TZ, the IDF Zebra had 787 Twitter followers and 745 Instagram followers. The IDF Walk for PI Facebook had 3,224 likes.

National Primary Immunodeficiency Awareness Month and World PI Week
IDF conducted an active social media campaign throughout April, asking followers to share facts and submit their own photos and experiences, using campaign hashtags #piawareness, #thinkzebra and #worldpiweek.

IDF Resource Center
For all videos on the IDF Resource Center, they were watched more than 2,093 times. IDF uploaded 10 new videos to our YouTube channels circulating over 91,613 views. A podcast called Primary Immunodeficiency Q&A was launched, with 4 different episodes played over 1,173 times.

PUBLIC POLICY
The voice of the PI community.

IDF Action Alerts
2,000 letters and calls were made to policymakers as a result of IDF Action Alerts. This system is a tool utilized to mobilize our community by promoting our activists to take immediate action on legislative issues relation to PI.

Advocacy Day 2018
In 2018, 49 patients and family members participated in 80 legislative meetings. The annual IDF Advocacy Day on Capitol Hill focuses on garnering legislative support for the PI community. Members of the community met face-to-face with legislators and sat in on Congressional meetings.

SCID Newborn Screening Campaign
Much progress was made in 2018 to ensure all babies born in the U.S. are screened for Severe Combined Immunodeficiency (SCID), one of the most severe forms of PI. All 50 states in the U.S. are now screening for SCID. IDF will continue to actively support and educate families affected by SCID.

Because primary immunodeficiency diseases are rare, chronic conditions, continuity in our programs is one of the most important aspects of the services provided by IDF. Because of the Core Service Program, IDF is able to provide the educational materials and local programming to patients and families and healthcare professionals free of charge. IDF greatly appreciates these sponsors and all others who make our mission possible.
