IDF & USIDNET LeBien Visiting Professor Program

Provide your faculty with a Visiting Professor with expertise in primary immunodeficiency diseases

- Available to teaching hospitals throughout the United States
- Expert clinical immunologists to lead grand rounds and other educational activities
- Increases knowledge of the diagnosis and treatment of primary immunodeficiency diseases
- No cost to the participating hospital

For more information, call the Immune Deficiency Foundation at 800-296-4433 or email idf@primaryimmune.org

The Immune Deficiency Foundation is the national patient organization dedicated to improving the diagnosis, treatment and quality of life of persons with primary immunodeficiency diseases through advocacy, education and research.

This program is supported by charitable donations from Abbvie, Baxter International Inc., CSL Behring, Grifols, Biotest Pharmaceuticals, IgG America | ASD Healthcare | US Bioservices, Octapharma, and the Louis and Virginia Clemente Foundation, Inc. as well as the United States Immunodeficiency Network (USIDNET). USIDNET is a program of IDF and funded in part by the National Institute of Allergy and Infectious Diseases (NIAID) and the National Institutes of Health (NIH) an agency of the Department of Health & Human Services.
Teaching Hospitals Find the Program Valuable

“This was a wonderful opportunity to learn about the latest developments in diagnosis, research and treatment. Our Visiting Professor was extremely approachable and able to impart great insight.”

“The Visiting Professor was an extreme pleasure to have. The presentations were thorough and informative. Numerous physicians commented on how much they learned and how engaged he made them feel.”
