The Immune Deficiency Foundation (IDF) is proud to provide a website dedicated to those living with Chronic Granulomatous Disease (CGD), featuring the latest information and educational resources for individuals and families.

**Learn about CGD**

LivingwithCGD.org provides comprehensive medical and life management information from CGD experts. Today, CGD is a condition that can be effectively managed. The key is early diagnosis and treatment with appropriate prophylaxis, and preventing infections by avoiding materials and activities that expose patients to harmful levels of bacteria and fungi. Visit the site for the latest information.

**Connect and Discover**

Individuals and family members share their stories on LivingwithCGD.org through inspiring videos and blog posts. Check out the site to get inspired, connect with others, and stay up to date on news and events related to CGD. Sign up for blog updates, and join the CGD Group in IDF Friends.

IDF hopes that the CGD community will see this site as their place to come together with other individuals and families to learn the latest on CGD, gain encouragement, and advocate on behalf of the community.

**Visit LivingwithCGD.org!**

*LivingwithCGD.org is a program of the Immune Deficiency Foundation. The site is made possible by an unrestricted educational grant from Horizon Pharma.*
