Help Advance Research

Give researchers a first-hand account of the patient experience by sharing your information through IDF PI CONNECT,* Patient-Powered Research Network. Access the exclusive Research Forum to discuss ideas and innovations.

As a user, become a part of the USIDNET** patient-consented registry, which helps advance research of PI. Your information is secure, aggregated and de-identified.

Participate and make a difference for the future of the PI community.

Create an IDF ePHR account and join IDF PI CONNECT!

Track Your Health

It’s time to organize your health information with IDF ePHR, the electronic personal health record designed specifically for the primary immunodeficiency (PI) community.

Keep your medical info safe, secure and easily accessible at no cost to you. Use the web version or app to log health and fitness goals, utilize the calendar, and set reminders and notifications. Plus you can contribute to research by joining IDF PI CONNECT.

IDF ePHR is exclusively sponsored by CSL Behring.
